Subject: City of Atlanta Boards and Commissions

Mr. Derrick Williams and Whom It May Concern:

I was inspired when I read about the opportunity to serve the city as a volunteer on the City of Atlanta Boards and Commissions; and I am very excited about the possibility of doing so. Through my travels to other cities around the world, I have come to respect the diversity and culture that Atlanta has to offer its residents, visitors and investors. As a city resident, I have a sincere interest and desire in ensuring that we maintain and enhance our reputation as a world-class city.

I believe that my 20-plus years of management experience in the corporate world has prepared me well for handling the intricacies in communications and negotiations (formal and informal) that are so necessary in civic affairs. My professional experience as an industrial engineer has developed my ability to analyze complex problems, identify the underlying issues and interests of all the stakeholders involved and then formulate options for win-win outcomes.

Community involvement has always been a priority in my life. My current and previous efforts with local Atlanta-area non-profit organizations have been at different levels of participation - as volunteer, board member and officer. My most recent accomplishment was the co-chair of the 2004 Midtown Tour of Homes, an event that was a part of this past Atlanta Dogwood Festival on April 3rd-4th.

I believe that my involvement in the community is long-term investment of my time and efforts where the rewards are a safer and economically stable city that attracts residents, investors and visitors to experience our unique cultural mix. Please review the attached document and consider me as a volunteer. You may reach me at atlantaann@aol.com, 404.285.6619 or write to me.
